Letter of Reference

To whom it may concern,

this is to endorse Mr. Stefan Reindl, recent graduate of the UIBE Business School's IMBA program (class of 2013), who has joined our volunteer teaching program twice: in Guizhou province in Summer 2012 as well as in Yunnan province in Summer 2013.

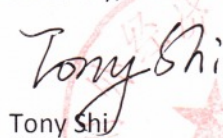

During these programs, Mr Reindl was part of a team of 6 volunteer teachers, who prepared and conducted various classroom teaching activities with students of Ronjiang High School and Qiutian Middle Schools (both in Guizhou) and Mengla 1st Middle School (in Yunnan) in order to improve the students' oral English skills (Listening and Speaking) as well as to encourage the students and to build confidence in approaching, learning and speaking foreign languages.

In addition to the actual classroom activities Mr. Reindl has donated countless hours for preparation and continuous adjustment of teaching materials and student activities, which at times had to be conducted under challenging circumstances. In compiling and conducting classroom activities, Mr. Reindl has shown a high level of commitment, passion and empathy for the students as well as creativity, flexibility and professionalism in terms of content and teaching approaches.

He has not only worked with the students and volunteers of his group but has also contributed to the whole program's success. Mr. Reindl was a trustworthy, reliable and ambitious volunteer teacher with a strong moral character and we highly recommend Mr. Reindl for any education or teaching related position or program, where we are sure he will excel and be an asset to any team and community.

We thank Mr. Reindl for his commitment and efforts and wish him all the best for his future.

Sincerely,

Tony Shi
